 (Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called Mr. Kachmarik to propose an Examiner's Amendment for claim 17. The amendment was needed to better define that the lower part comprises the semicylindrical groove, an axle and a pair of arms, that the pair of arms attaches the lower part to the axle, that the holder receives the axle so that a pivoting axis that passes through the handle is parallel to a second axis defined by the holder. Mr. Kachmarik reviewed the case and agreed to the changes. Both parties agreed to make these changes through an Examiner's Amendment in order to expedite the allowance of the application. .
